Professional Summary

Final-year MCA student with a strong foundation in computer applications and software development, web technologies, databases, and machine learning. Experienced in building full-stack web and mobile applications using Python, Django, Flutter, and MySQL. Seeking entry-level job or internship opportunities across IT, software development, web development, AI/ML, and related technical roles to contribute effectively while continuously enhancing technical skills.

Technical Skills

Programming Languages: Python, Java, C++, Dart, Android (Java)

Web Technologies: HTML5, CSS3, JavaScript, Bootstrap

Frameworks & Libraries: Django, Flutter, scikit-learn, pandas, NumPy

Databases: MySQL, Firebase

Machine Learning: Classification Algorithms, Random Forest, Model Training & Evaluation

APIs & Tools: RESTful APIs, JSON

Version Control: Git, GitHub

Other Skills: Operating Systems, MS Office, Problem Solving, Team Collaboration

Education

Master of Computer Applications (MCA)	2026
MES College of Engineering, Kuttippuram	

Bachelor of Computer Applications (BCA)	2024
University of Calicut	
CGPA: 8.025	

Projects

SymptoCare – Hospital Management System with AI-Based Disease Prediction *PG Mini Project*

Technologies: Python, Django, MySQL, Machine Learning, HTML, CSS, JavaScript, pandas, NumPy, Git, REST APIs

- Developed a full-stack hospital management system integrated with machine learning-based disease prediction.
- Implemented a Random Forest model trained on 4,921 medical records with 132 symptom features.
- Built a multi-role application supporting Admin, Hospital, Doctor, and Patient workflows.
- Designed 13+ normalized database models and developed 40+ RESTful API endpoints.
- Created a responsive and professional user interface following healthcare application standards.

Auditorium Booking Mobile Application

UG Project

Technologies: Flutter, Dart, Firebase

- Developed a cross-platform mobile application for booking auditoriums with real-time availability.
- Implemented user authentication and booking management using Firebase.
- Designed an intuitive UI for seamless user experience across Android and iOS platforms.

Courses & Certifications

- Cloud Computing – NPTEL, IIT Kharagpur
- Essentials of Git – Sync N Spark
- Artificial Intelligence Workshop – Hands-on training in ML concepts and applications
